

**DURABLE MEDICAL EQUIPMENT, PROSTHETICS, ORTHOTICS,  
AND SUPPLIES (DMEPOS) QUALITY STANDARDS**

1. Spectrum must be in compliance with all applicable Federal and State licensure and regulatory requirements.
2. Spectrum must provide complete and accurate information on the DMEPOS supplier application. Any changes to this information must be reported to the National Supplier Clearinghouse within 30 days.
3. An authorized individual (one whose signature is binding) must sign the application for billing privileges.
4. Spectrum must fill orders from its own inventory, or must contract with other companies for the purchase of items necessary to fill the order. Spectrum may not contract with any entity that is currently excluded from the Medicare program, any State health care programs, or from any other Federal procurement or non-procurement programs.
5. Spectrum must advise beneficiaries that they may rent or purchase inexpensive or routinely purchased durable medical equipment, and of the purchase option for capped rental equipment.
6. Spectrum must notify beneficiaries of warranty coverage and honor all warranties under applicable State law, and repair or replace free of charge Medicare covered items that are under warranty.
7. Spectrum must maintain a physical facility on an appropriate site.
8. Spectrum must permit CMS, or its agents to conduct on-site inspections to ascertain the supplier's compliance with these standards. The supplier location must be accessible to beneficiaries during reasonable business hours, and must maintain a visible sign and posted hours of operation.
9. Spectrum must maintain a primary business telephone listed under the name of the business in a local directory or a toll free number available through directory assistance. The exclusive use of a beeper, answering machine or cell phone is prohibited.
10. Spectrum must have comprehensive liability insurance in the amount of at least \$300,000 that covers both the supplier's place of business and all customers and employees of the supplier. If the supplier manufactures its own items, this insurance must also cover product liability and completed operations.
11. Spectrum must agree not to initiate telephone contact with beneficiaries, with a few exceptions allowed. This standard prohibits suppliers from calling beneficiaries in order to solicit new business.
12. Spectrum is responsible for delivery and must instruct beneficiaries on use of Medicare covered items, and maintain proof of delivery.
13. Spectrum must answer questions and respond to complaints of beneficiaries, and maintain documentation of such contacts.
14. Spectrum must maintain and replace at no charge or repair directly, or through a service contract with another company, Medicare-covered items it has rented to beneficiaries.
15. Spectrum must accept returns of substandard (less than full quality for the particular item) or unsuitable items (inappropriate for the beneficiary at the time it was fitted and rented or sold) from beneficiaries.

16. Spectrum must disclose these supplier standards to each beneficiary to whom it supplies a Medicare-covered item.
17. Spectrum must disclose to the government any person having ownership, financial, or control interest in the supplier.
18. Spectrum must not convey or reassign Spectrum number; i.e., the supplier may not sell or allow another entity to use its Medicare billing number.
19. Spectrum must have a complaint resolution protocol established to address beneficiary complaints that relate to these standards. A record of these complaints must be maintained at the physical facility.
20. Complaint records must include: the name, address, telephone number and health insurance claim number of the beneficiary, a summary of the complaint, and any actions taken to resolve it.
21. Spectrum must agree to furnish CMS any information required by the Medicare statute and implementing regulations.
22. Spectrum must be accredited by a CMS-approved accreditation organization in order to receive and retain Spectrum billing number. The accreditation must indicate the specific products and services, for which the supplier is accredited in order for the supplier to receive payment of those specific products and services (except for certain exempt pharmaceuticals).
23. Spectrum must notify their accreditation organization when a new DMEPOS location is opened.
24. Spectrum locations, whether owned or subcontracted, must meet the DMEPOS quality standards and be separately accredited in order to bill Medicare.
25. Spectrum must disclose upon enrollment all products and services, including the addition of new product lines for which they are seeking accreditation. If a new product is added after enrollment, Spectrum will be responsible for notifying the accrediting body of the new product so that Spectrum can be re-surveyed and accredited for these new products.
26. Spectrum must obtain a surety bond in order to receive and retain a supplier billing number.
27. Spectrum must obtain oxygen from a state licensed oxygen supplier.
28. Spectrum must maintain ordering and referring documentation from physicians and non-physician practitioners.
29. Spectrum is prohibited from sharing a practice location with certain other Medicare providers and suppliers.
30. Spectrum must remain open to the public for a minimum 30 hours per week with certain exceptions.
